

Our 6-point Brexit-Beater

Exchange rates since Brexit mean genuine cost increases in the cleaning industry -
Minimise the cost impact to you with these helpful ideas

proAct

1 Review your hand towels and toilet rolls

Check our guide to the most (and least) wasteful products

2 Concentrate on your chemicals

Go eco with reduced packaging, transport and storage costs. See more about Eco-Dose here

3 Do your sacks stack up?

You might be buying a bigger sack than you need – you could save 15% or more! And did you know that thicker doesn't necessarily mean stronger? Talk to us about the perfect sack for you

6 Hand protection that safeguards your wallet

Imagine the perfect glove – cheap, durable, non-allergenic... Hey-presto! Meet Synthetic, the swish hybrid who combines all our favourite things about nitrile, latex and vinyl in one

Request your full version, packed with guides and ideas to cut costs in every category

5 Vacuums that suck!

We stock vacuums with more powerful motors than the prevalent tub vac. Or how about a super-quiet model so that you can vac during the daytime, saving the cost of night-cleaning

4 Mop up the savings

More efficient equipment = less time spent cleaning = less labour cost. Check out the best cleaning systems
